Esther Schwandt, Clerk to the Board

Lauren Layne, Assistant General Counsel; Baker, Manock & Jensen

PRESIDING: Director Williams, presiding as Chairman called the meeting to order at 6:00 p.m. and Director Rastegar led the Pledge of Allegiance.
2. REPORT OF THE GENERAL MANAGER:

Mr. Hofmann reported on the following: (1) his attendance at the California Special District Association Conference last week; (2) he distributed copies of The Fresno Bee article dated Sunday, September 28, 2014 entitled, “Fresno City Hall Sees Recharge Basins as Part of the Water Solution”; Mr. Hofmann noted he was interviewed by Mr. George Hostetter, the newspaper reporter who had written the article; also, Mr. Hofmann stated he was asked to be a panelist at the first City of Fresno water forum, unfortunately he was out of town; however, he has been asked to participate at a subsequent one, and he will be able to participate in that one; (3) he reported staff has as of this date collected $6000.00 in revenue from the newly adopted Development Review Fees; he noted this is extra funding that was not included in the current District Budget; also, he stated he will have staff prepare on a regular basis, a Report to the Board on this item to keep the Board fully informed; (4) with respect to the Economic Development Administration (EDA) Grant he stated staff has begun the process of this Grant; however, he noted staff has been informed that EDA will not begin reimbursements until 100% of all the projects are awarded; Mr. Hofmann stated he will be working with the District’s Finance Manager as to how that will affect cash flow for the District, and what mitigation can be taken to limit the District’s exposure; and, (5) he reported the Clerk to the Board is in the process of scheduling a Priorities & Programming Committee for Monday, October 27th and an Administrative Committee Meeting for early November.

Director Spina expressed his concern with respect to The Fresno Bee article mentioned earlier by Mr. Hofmann under item no. 2. Specifically, the comments made in the newspaper article by the City of Fresno appear to indicate they will have their own flood control basins, noting they state in the article “that means recharge basins controlled by the city”. Director Spina noted the advantages of the City partnering with the District for recharge basins as is currently done. Mr. Hofmann stated it is his intent to become more involved in these discussions, noting the District has a long standing program with the City of Fresno in providing recharge, taking their water, and helping the City of Fresno with their water balance; however, they have not been at the table with the District in these discussions. Specifically, he stated there are several more District basins the City of Fresno could be utilizing in their recharge program. Director Fowler noted it would be very expensive for the City to attempt to develop basins in the urban area.
