

POLICY MANUAL

Date Adopted: March 22, 1994

Classification: FEES

Date Last Amended:

Subject: Drainage Fees; ENR Update

Approved By:

1. The drainage fee ordinances of the District, the City of Fresno, the County of Fresno and the City of Clovis provide for adjustment of the drainage fee schedule each year based on the construction cost index published in the Engineering News Record on January 1 of that year.

It is the mutual intent of the District and the Building Industry Association of the San Joaquin Valley (BIA) to use the most relevant and accurate index as the basis for the update process. The BIA has requested and the Board of Directors has agreed that the California Cities portion of the Engineering News Record index provides that basis.

Therefore, the Engineering News Record (ENR) index to be used for adjusting the schedule of fees pursuant to Section 4.105.0(b)(1) of the District's Ordinance Code shall be the average of the California Cities ENR indexes.
