

CLEAN STORMWATER IS EVERYBODY'S BUSINESS

Featured Partners

Orchard Supply Hardware (OSH) and the **UC Master Gardeners of Fresno County** promote the use of less toxic home and garden products at four local OSH stores and also conduct free plant clinics regularly at the stores.

Clovis Garage implements environmental practices including the proper clean-up, disposal and recycling of all automotive fluids. Employees are trained to protect the environment.

The Associated General Contractors, Building Industry Association and the **Fresno Builders Exchange** sponsor construction permit compliance trainings for local developers, contractors and builders.

Grundfos Pumps segregates its waste materials for recycling and stores them under cover to prevent the pollutants from contacting rain and contaminating stormwater runoff.

It's up to everyone to help prevent stormwater pollution. Urban stormwater flows to ponding basins, canals, creeks, and the San Joaquin River - all of which replenish groundwater. These businesses are doing their part to protect the quality of our community's water supply by joining the Fresno Metropolitan Flood Control District, City of Fresno, City of Clovis, County of Fresno, and CSU Fresno as Partners for Clean Stormwater. They deserve our thanks for making a difference!

These Businesses Help Keep Our Water and Our Community Clean
