Subject: District Park Reservations	Approved By: 

I. Purpose:

The Fresno Metropolitan Flood Control District (District) has developed property for recreational uses in accordance with its Act. The parks are public open space facilities and used by the public, including the use of various park pavilions. The District has a reservation program for securing the use of the park pavilions, including general conditions governing such use. The use of these pavilions requires the District to expend staff time and resources to keep the reservation system operational and the park pavilions clean. The purpose of this Policy is to recover a portion of the costs incurred by the District for the public's use of the park pavilions.

II. Policy:

The District shall provide for the collection of a Park Reservation Fee for the use of the park pavilions at Basin "D" Oso de Oro Lake Park and Basin "Y" Trolley Creek Park. Said fee is to offset District costs associated with the purchase of equipment and supplies, park maintenance and software to support the reservation system. Therefore, it is the policy of the District to require payment of a Park Reservation Fee at the time of making a reservation for use of the park pavilions.
