I. Purpose:

The Fresno Metropolitan Flood Control District Act provides for the issuance of purchase contracts for materials, supplies and public works improvements. State Assembly Bill 1592, signed by the Governor and Chaptered by the Secretary of State on June 28, 2021, amended the District Act with regard to the competitive bidding limit for purchase of materials and supplies, superseding those provisions of District Resolution No. 98-124 authorizing expenditures for materials and supplies. District Resolution 98-145 assigns other local, state, and governmental entities as purchasing agents for the District. District Resolution No. 1567 adopted the Uniform Public Construction Cost Accounting Procedures. It is the purpose of this document to state the policy of the District concerning the rules which govern the contracting procedures available to the District.

II. Policy:

1. Non-competitive Bid Contracts

A. The District Act establishes a competitive bidding threshold for the purchase of all public works improvements at \$10,000, and a competitive bidding threshold for the purchase of materials and supplies

at \$16,000. Purchases below these limits do not require a competitive bidding process but will otherwise comply with District policy.

(1) It is the policy of the District to informally receive more than one bid or price proposal for purchase of public works of \$10,000 or less or for purchase of materials and supplies of \$16,000 or less.

This policy may be waived by the General Manager in cases of emergency, sole source suppliers, or for purchasing less than \$1,000.

(2) The General Manager-Secretary or his authorized alternate, the Assistant General Manager, can execute purchase contracts for public works in the amount of \$10,000 or less, or purchase contracts for materials and supplies in the amount of \$16,000 or less without prior Board of Directors action, provided budgeted funding has been allocated.

B. The District may execute contracts for public works improvements, materials and supplies without competitive bidding when such contracts are entered into with any other public agency or governmental entity.

4. Uniform Cost Accounting Contracting

Public Contract Code Section 22000 et seq., the Uniform Public Construction Cost Accounting Act, establishes a uniform cost accounting standard which allows alternative bidding procedures for public projects. Under the Accounting Act, the District can perform public projects of Sixty Thousand Dollars (\$60,000) or less, (which limit may be modified from time to time by statute), by the employees of the District through force account, by negotiated contract, or by purchase order. Public works of Two Hundred Thousand Dollars (\$200,000) or less, (which limit may be modified from time to time by statute), may be contracted through the informal procedures set forth in the code.
