

<h1>POLICY MANUAL</h1>	Date Adopted: September 12, 1983
Classification: FEES	Date Last Amended:
Subject: Drainage Fees: Reconciliation of In-/Out-of-District Rates	Approved By:

1. Areas which have been subject to the County out-of-District rate schedule prior to annexation to the District may have paid higher prepaid drainage assessment rates than land subject to the in-District rate schedule. It will, therefore, be necessary to effect an adjustment for those properties which have paid such a higher rate when said rate exceeds the rate levied pursuant to subsequent in-District District assessment proceedings.
  
2. Adjustment procedures should be initiated at the time of assessment district formation. Every parcel which may have paid at a rate higher than that at which the improvement district is to be assessed should have the excess payment calculated and an appropriate refund issued to the current property owner, said refund to be issued within one year following the successful formation of the improvement district.
