

Join Our Team as a Construction Inspector I-III

Hiring Range DOQ: \$2,280 - \$3,667 biweekly

Apply now: <https://www.fresnofloodcontrol.org/employment-opportunities/>

Help Us Build a Stronger Community! Are you a detail-oriented professional with a passion for the construction of public works projects? The District is seeking a versatile Construction Inspector to oversee the construction of complex projects, ranging from underground storm drain pipelines to basin pump stations. Join us and play a vital role in our local infrastructure!

Who We Are

We're a **special-purpose district** dedicated to flood control and urban stormwater management, serving the cities of **Fresno and Clovis**, along with parts of **Fresno County**. With a team of **76 full-time staff** covering a **400-mile service area**, we embrace diverse roles and responsibilities. Guided by our core values, transparency and accountability, integrity, and teamwork, we strive to deliver exceptional service and uphold public trust in everything we do.

Who You Are

You're a motivated professional with:

- A **High School diploma or equivalent** (Levels 2 and 3 must have additional technical training in engineering, construction drafting, surveying, or water sciences).
- At least **one to five years of general experience** related to the construction of public works projects or a Bachelor's degree in Civil Engineering, Industrial Technology, or a related field with specialization in construction
- Strong **interpersonal and communication skills**
- A knack for **problem-solving** and a keen eye for detail

What You'll Do

In this position, you won't just be watching from the sidelines. You will be the on-site technical expert, ensuring that every project meets our high standards for safety and longevity. Your responsibilities will include:

- **Precision Inspection:** Perform detailed construction inspection and coordinate field/laboratory testing on construction materials.
- **Drainage Expertise:** Oversee and inspect drainage-related construction activities to ensure compliance with District standards.
- **Surveying & Project Design Assessment:** Conduct field survey parties, review field data, and translate findings into accurate construction drawings.
- **Project Coordination:** Coordinate work plans and construction schedules while assisting in securing necessary permits to keep projects moving forward.
- **Technical Translation:** Interpret construction plans and drawings, and verify correct materials are utilized in construction.
- **Documentation:** Prepare reports, official correspondence, and maintain detailed project records.

Why Join Us?

- Be part of a **tight-knit, mission-driven team**
- Contribute to **essential public services**
- Enjoy opportunities for **professional growth and development**
